Tillage and rainfall effects on random roughness: a review	1

SUBJECT INDEX

- Aggregation
 - Laboratory experiments on the effects of antecedent moisture and residue application on aggregation of different soils 21
- Alaska
 - Effects of tillage and cropping sequence on Alaskan weed vegetation: studies on land under cultivation for eleven years 265
 - Effects of tillage and straw management on Alaskan weed variation: a study on newly cleared land 275
- Anionic polymers
 - Field evaluation of methods of incorporating soil conditioners 151
- Antecedent moisture
 - Laboratory experiments on the effects of antecedent moisture and residue application on aggregation of different soils 21
- Barley
 - Barley seedling establishment by direct drilling in a wet soil: 2. Effects of earthworms, residue and openers 123
 - Cultivation and nitrogen requirements for drilled and broadcast winter barley on a surface water gley (Gleysol) 103
- Brazil
 - Infiltration measurements with double-ring infiltrometers and a rainfall simulator under different surface conditions on an oxisol 161
- Bulk density
 - Tillage effects on shear strength and bulk density of soil aggregates 255
- China
 - Physical chemistry of paddy soils (book review) 93
- Clay soils
 - A study of mole drainage with simplified cultivation for autumn-sown crops on a clay soil. 5. Losses of nitrate-N in surface run-off and drain water 317
 - Interflow in a tilled, cracking clay soil under stimulated rain 45
 - Subsoiling in some heavy clay soils of Egypt 207
 - The effect of soil water content during land preparation on aspects of soil physical condition and cotton growth 287
- Compaction
 - An implement configuration to loosen soil by inducing tensile failure 363
 - Soil compaction under quasi-static and impact stress loading 181
- Conductivity
 - Changes of soil water suction, conductivity and dry strength during deformation of wet undisturbed samples 169
- Conservation tillage
 - Corn leaf water potential and water use efficiency under three conservation tillage systems 241
- Core-break technique
 - An assessment of the core-break method for estimating rooting density of different crops in the field 347
- Cotton
 - The effect of soil water content during land preparation on aspects of soil physical condition and cotton growth 287

Critical rooting conditions	
Estimation of soil strength properties for critical rooting conditions	377
Cropping sequence	
Effects of tillage and cropping sequence on Alaskan weed vegetation: studies on land under cultivation for eleven years	265
Cultivators	
An implement configuration to loosen soil by inducing tensile failure	363
Overload-controlled cultivation shanks under static loads	333
Deformation	
Changes of soil water suction, conductivity and dry strength during deformation of wet undisturbed samples	169
Direct drilling	
A study of mole drainage with simplified cultivation for autumn-sown crops on a clay soil. 5. Losses of nitrate-N in surface run-off and drain water	317
Barley seedling establishment by direct drilling in a wet soil: 2. Effects of earthworms, residue and openers	123
Cultivation and nitrogen requirements for drilled and broadcast winter barley on a surface water gley (Gleysol)	103
Drain water	
A study of mole drainage with simplified cultivation for autumn-sown crops on a clay soil. 5. Losses of nitrate-N in surface run-off and drain water	317
Drip irrigation	
Drip irrigation manual (book review)	304
Dry Strength	
Changes of soil water suction, conductivity and dry strength during deformation of wet undisturbed samples	169
Earthworms	
Barley seedling establishment by direct drilling in a wet soil: 2. Effects of earthworms, residue and openers	123
Egypt	
Subsoiling in some heavy clay soils of Egypt	207
Entisols	
Multiple cropping in rainfed upland entisol under different soil management conditions in the sub-humid tropics	135
Erosion	
Interflow in a tilled, cracking clay soil under simulated rain	45
Fallowing	
Fallow method influences on soil water and precipitation storage efficiency	307
Fertilizer	
Effects of tillage on deposition and utilization of ^{15}N residual fertilizer	33
Forage	
Forage and fuel production from salt affected wasteland (book review)	399
Fuel production	
Forage and fuel production from salt affected wasteland (book review)	399
<i>Gaeumannomyces graminis</i> var. <i>graminis</i>	
Saprophytic survival of the take-all fungus and its antagonist, <i>Gaeumannomyces</i> <i>graminis</i> var. <i>graminis</i> under conventional and no-tillage	355
<i>Gaeumannomyces graminis</i> var. <i>tritici</i>	
Saprophytic survival of the take-all fungus and its antagonist, <i>Gaeumannomyces</i> <i>graminis</i> var. <i>graminis</i> under conventional and no-tillage	355

Gleysols

- Cultivation and nitrogen requirements for drilled and broadcast winter barley on a surface water gley (Gleysol) 103

Growth

- An assessment of the core-break method for estimating rooting density of different crops in the field 347
- Effect of soil management on rain-fed wheat in Northern India. I. Hydro-thermal regime and root growth 65
- Effect of soil management on rain-fed wheat in Northern India. II. Nutrient uptake, plant growth and yield 79

Implements

- An implement configuration to loosen soil by inducing tensile failure 363
- Overload-controlled cultivation shanks under static loads 333

Infiltration

- Infiltration measurements with double-ring infiltrometers and a rainfall simulator under different surface conditions on an oxisol 161

Interflow

- Interflow in a tilled, cracking clay soil under simulated rain 45

Irrigation

- Drip irrigation manual (book review) 304

Land use

- Soil spatial variability (book review) 91

Leaf water potential

- Corn leaf water potential and water use efficiency under three conservation tillage systems 241

Maize

- Corn leaf water potential and water use efficiency under three conservation tillage systems 241

Minimum tillage

- No-tillage and surface-tillage agriculture. The tillage revolution (book review) 395

Mole drainage

- A study of mole drainage with simplified cultivation for autumn-sown crops on a clay soil. 5. Losses of nitrate-N in surface run-off and drain water 317

Mulching

- Effects of no-till and disc plowing with and without residue mulch on tropical root crops in southeastern Nigeria 231
- Influence of method of mulch application on growth and yield of tropical root crops in southeastern Nigeria 217

Multiple cropping

- Multiple cropping in rainfed upland entisol under different soil management conditions in the sub-humid tropics 135

Newly cleared land

- Effects of tillage and straw management on Alaskan weed vegetation: a study on newly cleared land 275

Nigeria

- Effects of no-till and disc plowing with and without residue mulch on tropical root crops in southeastern Nigeria 231
- Influence of method of mulch application on growth and yield of tropical root crops in southeastern Nigeria 217

Nitrogen

- A study of mole drainage with simplified cultivation for autumn-sown crops on a clay soil. 5. Losses of nitrate-N in surface run-off and drain water 317

Cultivation and nitrogen requirements for drilled and broadcast winter barley on a surface water gley (Gleysol)	103
Effects of tillage on deposition and utilization of ^{15}N residual fertilizer	33
Northern India	
Effect of soil management on rain-fed wheat in Northern India. I. Hydro-thermal regime and root growth	65
Effect of soil management on rain-fed wheat in Northern India. II. Nutrient uptake, plant growth and yield	79
No-tillage	
No-tillage and surface-tillage agriculture. The tillage revolution (book review)	395
Saprophytic survival of the take-all fungus and its antagonist, <i>Gaeumannomyces graminis</i> var. <i>graminis</i> under conventional and no-tillage	355
Effects of no-till and disc plowing with and without residue mulch on tropical root crops in southeastern Nigeria	231
Nutrients	
Root, nutrient and water influx (book review)	303
Effect of soil management on rain-fed wheat in Northern India. II. Nutrient uptake, plant growth and yield	79
Openers	
Barley seedling establishment by direct drilling in a wet soil: 2. Effects of earthworms, residue and openers	123
Oxisols	
Infiltration measurements with double-ring infiltrometers and a rainfall simulator under different surface conditions on an oxisol	161
Paddy soils	
Physical chemistry of paddy soils (book review)	93
Ploughing	
Cultivation and nitrogen requirements for drilled and broadcast winter barley on a surface water gley (Gleysol)	103
Effects of no-till and disc plowing with and without residue mulch on tropical root crops in southeastern Nigeria	231
Precipitation storage	
Fallow method influences on soil water and precipitation storage efficiency	307
Primary production in the Sahel (PPS)	
Communication of the results of the "Primary Production in the Sahel (PPS)" research project	387
Publicizing Results	
Communication of the results of the "Primary Production in the Sahel (PPS)" research project	387
Rainfall	
Infiltration measurements with double-ring infiltrometers and a rainfall simulator under different surface conditions on an oxisol	161
Interflow in a tilled, cracking clay soil under simulated rain	45
Tillage and rainfall effects on random roughness: a review	1
Residues	
Barley seedling establishment by direct drilling in a wet soil: 2. Effects of earthworms, residue and openers	123
Effects of tillage on deposition and utilization of ^{15}N residual fertilizer	33
Laboratory experiments on the effects of antecedent moisture and residue application on aggregation of different soils	21

Rice	
Soil physics and rice (book review)	396
Root crops	
Effects of no-till and disc plowing with and without residue mulch on tropical root crops in southeastern Nigeria	231
Influence of method of mulch application on growth and yield of tropical root crops in southeastern Nigeria	217
Rooting conditions	
Estimation of soil strength properties for critical rooting conditions	377
Rooting density	
An assessment of the core-break method for estimating rooting density of different crops in the field	347
Root systems	
Root, nutrient and water influx (book review)	303
Roughness	
Tillage and rainfall effects on random roughness: a review	1
Runoff	
A study of mole drainage with simplified cultivation for autumn-sown crops on a clay soil. 5. Losses of nitrate-N in surface run-off and drain water	317
Interflow in a tilled, cracking clay soil under simulated rain	45
Rural development	
Communication of the results of the "Primary Production in the Sahel (PPS)" research project	387
Salt affected soils	
Forage and fuel production from salt affected wasteland (book review)	399
Semi-arid soils	
Effects of tillage on deposition and utilization of ^{15}N residual fertilizer	33
Shear strength	
Tillage effects on shear strength and bulk density of soil aggregates	255
Simplified cultivation	
A study of mole drainage with simplified cultivation for autumn-sown crops on a clay soil. 5. Losses of nitrate-N in surface run-off and drain water	317
Soil aggregates	
Tillage effects on shear strength and bulk density of soil aggregates	255
Soil conditioners	
Field evaluation of methods of incorporating soil conditioners	151
Soil management	
An implement configuration to loosen soil by inducing tensile failure	363
Effect of soil management on rain-fed wheat in Northern India. I. Hydro-thermal regime and root growth	65
Effect of soil management on rain-fed wheat in Northern India. II. Nutrient uptake, plant growth and yield	79
Multiple cropping in rainfed upland entisol under different soil management conditions in the sub-humid tropics	135
Soil physics and rice (book review)	396
Soil spatial variability (book review)	91
Soil microrelief	
Tillage and rainfall effects on random roughness: a review	1
Soil physics	
Soil physics and rice (book review)	396

Soil profile	
Subsoiling in some heavy clay soils of Egypt	207
Soil strength	
Estimation of soil strength properties for critical rooting conditions	377
Soil structure	
Field evaluation of methods of incorporating soil conditioners	151
Laboratory experiments on the effects of antecedent moisture and residue application on aggregation of different soils	21
The effect of soil water content during land preparation on aspects of soil physical condition and cotton growth	287
Soil-tool interaction,	
Dynamics of soil-tool interaction	187
Soil variability	
Soil spatial variability (book review)	91
Soil water	
Changes of soil water suction, conductivity and dry strength during deformation of wet undisturbed samples	169
The effect of soil water content during land preparation on aspects of soil physical condition and cotton growth	287
Fallow method influences on soil water and precipitation storage efficiency	307
Stony soils	
Overload-controlled cultivation shanks under static loads	333
Straw	
Effects of tillage and straw management on Alaskan weed vegetation: a study on newly cleared land	275
Stress loading	
Soil compaction under quasi-static and impact stress loading	181
Subsoiling	
Subsoiling in some heavy clay soils of Egypt	207
Surface-tillage	
No-tillage and surface-tillage agriculture. The tillage revolution (book review)	395
Take-all	
Saprophytic survival of the take-all fungus and its antagonist, <i>Gaeumannomyces graminis</i> var. <i>graminis</i> under conventional and no-tillage	355
Temperature regime	
Effect of soil management on rain-fed wheat in Northern India. I. Hydrothermal regime and root growth	65
Tensile failure	
An implement configuration to loosen soil by inducing tensile failure	363
The Sahel	
Communication of the results of the "Primary production in the Sahel (PPS)" research project	387
Tillage	
An implement configuration to loosen soil by inducing tensile failure	363
Corn leaf water potential and water use efficiency under three conservation tillage systems	241
Cultivation and nitrogen requirements for drilled and broadcast winter barley on a surface water gley (Gleysol)	103
Dynamics of soil-tool interaction	187
Effects of no-till and disc plowing with and without residue mulch on tropical root crops in southeastern Nigeria	231

Effects of tillage and cropping sequence on Alaskan weed vegetation: studies on land under cultivation for eleven years	265
Effects of tillage and straw management on Alaskan weed vegetation: a study on newly cleared land	275
Effects of tillage on deposition and utilization of ^{15}N residual fertilizer	33
Infiltration measurements with double-ring infiltrometers and a rainfall simulator under different surface conditions on an oxisol	161
Interflow in a tilled, cracking clay soil under simulated rain	45
Multiple cropping in rainfed upland entisol under different soil management conditions in the sub-humid tropics	135
No-tillage and surface-tillage agriculture. The tillage revolution (book review)	395
Overload-controlled cultivation shanks under static loads	333
Saprophytic survival of the take-all fungus and its antagonist, <i>Gaeumannomyces graminis</i> var. <i>graminis</i> under conventional and no-tillage	355
Tillage and rainfall effects on random roughness: a review	1
Tillage effects on shear strength and bulk density of soil aggregates	255
<i>Triticum aestivum</i>	
Effect of soil management on rain-fed wheat in Northern India. I. Hydro-thermal regime and root growth	65
<i>Triticum aestivum</i> L.	
Effect of soil management on rain-fed wheat in Northern India. II. Nutrient uptake, plant growth and yield	79
Fallow method influences on soil water and precipitation storage efficiency	307
Tropics	
Effects of no-till and disc plowing with and without residue mulch on tropical root crops in southeastern Nigeria	231
Influence of method of mulch application on growth and yield of tropical root crops in southeastern Nigeria	217
Multiple cropping in rainfed upland entisol under different soil management conditions in the sub-humid tropics	135
Ultisols	
Estimation of soil strength properties for critical rooting conditions	377
Influence of method of mulch application on growth and yield of tropical root crops in southeastern Nigeria	217
Vertisols	
Subsoiling in some heavy clay soils of Egypt	207
Water influx	
Root, nutrient and water influx (book review)	303
Water regime	
Effect of soil management on rain-fed wheat in Northern India. I. Hydrothermal regime and root growth	65
Water use efficiency	
Corn leaf water potential and water use efficiency under three conservation tillage systems	241
Weeds	
Effects of tillage and cropping sequence on Alaskan weed vegetation: studies on land under cultivation for eleven years	265
Effects of tillage and straw management on Alaskan weed vegetation: a study on newly cleared land	275
Wet soils	
Barley seedling establishment by direct drilling in a wet soil: 2. Effects of earthworms, residue and openers	123

Changes of soil water suction, conductivity and dry strength during deformation of wet undisturbed samples	169
Wheat	
Effect of soil management on rain-fed wheat in Northern India. I. Hydro-thermal regime and root growth	65
Effect of soil management on rain-fed wheat in Northern India. II. Nutrient uptake, plant growth and yield	79
Fallow method influences on soil water and precipitation storage efficiency	307
Yield	
Effect of soil management on rain-fed wheat in Northern India. II. Nutrient uptake, plant growth and yield	79
